Alexandria, VA 22313-1450

Dear Sir:

This is in response to a restriction requirement herein mailed 16 April 2003, time for response to which was set to expire 16 March 2003. Three groups were proposed.

Applicants elect to prosecute the invention of Group I, claims 1-7, and 10-14, drawn to a method for producing a soluble protein domain. An election of species was also required.

Applicants elect the species D - fluorescent proteins. Applicants understand that should a generic claim be found allowable, additional species will be rejoined.

This election is made without traverse.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket No 251002009400.

Respectfully submitted,

Dated: May 16, 2003
